

## Course schedule of the ski and snowboard lessons on Torrent

**So that you know what belongs to you and your children, we have compiled the most important information for you.**

**On Monday**, you and your children will be greeted by the snow sports instructors. Show your ski school ticket (which you must obtain at the ski school office BEFORE class starts) to a ski instructor on the site.

According to this ticket you are assigned to groups. On the first day it needs a bit of patience, as all visitors must first be classified. If the first allotment is made the warm-up will start before the class starts.

After warming up, on a simple slope the children will show the skiing skills to the instructors. With this they check if your child is in the right group. In this process, children are assigned to their ski instructor.

So, the lessons can begin now. The ski instructors will make a break after 1.5 hours. Depending on the weather, this pause will be made in the open air or in a restaurant. Give your child about CHF 5.- so that it can pay for the drink at the restaurant.

**On Tuesday**, a photographer will take group photos on the meeting place by the Rinderhütte. You can buy those the next day at a fair price in the photo studio Studio 4. Get more information under +41 79 239 25 24 or [www.studio-4.ch](http://www.studio-4.ch). You will find the Studio 4 in the Kurparkstrasse 16 (across from the Mammut shop).

**On Thursday**, in addition to the normal teaching the ski race takes place. The start time will be announced at the beginning of the lesson. Of course, each participant receives a medal.

**Important:** If you have ever been to a Swiss ski school, which is connected to Swiss Snowsports, then you got a booklet in which the popular courses are registered. We ask you to leave this booklet to the ski instructor so he can enter the new course.
